#### INTRODUCTION

NO TABLE was published after the 1951 Census to indicate the characteristics of family life in this State. It was accordingly decided, with the approval of the Deputy Registrar General, India, to publish such tables but as the enumeration slips of the 1951 Census could not be used, it was decided to prepare such tables on the basis of the National Register of Citizens which were prepared during the 1951 Census.

As the extraction of the various information required for the preparation of the tables from all the entries in the National Register of Citizens would have entailed huge labour and expense, the method of systematic sampling was used to select about five per cent. of the families recorded in those registers, for the purpose of extracting the necessary data.

The work of preparation of the tables was taken in hand in September, 1956 and the final copies of the tables were sent to the press in September, 1958.

It has not yet been possible to prepare similar tables in respect of the districts of Bankura, Malda and West Dinajpur.

CALCUTTA

18th April 1959.

J. C. SEN GUPTA,

Superintendent of Census

Operations, West Bengal & Sikkim.
